

The Challenge

ARC Group USA, a full-service general contractor, spent 2-5 hours reaching out to local haulers while planning jobs in new regions of the country. After finding a vendor, they often ran into problems like dumpsters not being on-site when the haulers promised, poor customer service and inefficient invoicing.

The Solution

The dumpster rental process changed for the better when ARC Group USA started working with Dumpsters.com. Through this service, they gained access to:

Construction dumpsters in 800+ service areas and all 50 states

1 point of contact for all of their needs

Quick scheduling for deliveries, pickups and swap-outs

Streamlined billing for multiple jobs across the country

The Results

Since partnering with Dumpsters.com, ARC Group USA has received consistent dumpster service for all their jobs. Now, when ARC Group USA starts a new job, all they need to do is reach out to their account manager, Eric Larson, to order dumpsters, get quotes, arrange delivery, receive invoices and more—within just minutes.

200+
Dumpsters Rented in 3 Years

The Experience

*“Eric Larson is the best dumpster partner. Everything is always taken care of. Seldom do you find someone who takes care of a customer the way Eric does. **I don't have to worry about calling multiple companies, and the way I deal with Eric is great.** Either I email him, text him or call him. Everything goes smoothly.”*
