

## The Challenge

Designed Conveyor Systems (DCS) needed a nationwide provider with a one-stop-shop model for waste removal and portable sanitation services. Finding providers for both pieces of equipment meant hours on the phone and time away from managing projects effectively. For jobsites in remote areas, finding vendors often took even longer, leading to wasted time and added stress.

## The Solutions

With Dumpsters.com, Designed Conveyor Systems receives:

**Consolidated billing and reporting for all projects.**

**An extensive inventory of equipment to handle any job.**

**Nationwide coverage for both dumpsters and portable toilets.**

## The Results

Designed Conveyor Systems now enjoys:

- 1. Reliable Service & Support**
  - One dedicated point of contact.
- 2. Stress-Free Site Planning**
  - 4 to 5 hours saved per project.
  - Streamlined ordering.
- 3. Customized Waste Solutions**
  - One-stop shop for jobsite services.

## The Experience

*"There was an understanding of our businesses and the lifecycle of our projects so we ultimately decided to choose Dumpsters.com as our preferred vendor."*

Hannah Stone, Project Buyer
